Course summary

Congratulations on completing the first course in the Google Cloud Computing Foundations series! Continue your learning journey and enroll in the second course in the series: **Google Cloud Computing Foundations: Infrastructure in Google Cloud.**

To further demonstrate your capabilities in creating and managing cloud resources, you now have the opportunity to earn a digital Google Cloud skill badge.

The labs you completed throughout this course were stepping stones to prepare you for the final **Challenge Lab in the Getting Started: Create and Manage Cloud Resources** skill badge quest. Follow the steps below:

1. **Enroll** in the Getting Started: Create and Manage Cloud Resources Quest.

2. Complete any unfinished labs.

3. Complete the **Getting Started: Create and Manage Cloud Resources: Challenge Lab**.

4. Earn your skill badge and share on social media or your resume.
